

TESTING 2026 (JANUARY PHASE)

- The following document and assets are strictly for use in Pre-Season 2026 testing. They are not meant to replace any current Season 6 assets, card, or be incorporated into any existing events.
- The included assets are for testing purposes only and should ONLY be fielded against other Pre-Season 2026 assets.
- Pre-Season testing is subject to rapid, iterative changes and not representative of final changes unless otherwise announced. Feedback will be collected via announced methods and new versions and updates will be released as time goes on. There is no current timeframe for how long Pre-Season will extend or the scope of what it will include.
- Pre-Season testing is not meant for those new to the game or without high/expert level knowledge of the game, the existing armies, and core mechanics.

MISCELLANEOUS CORE CHANGES

- Line of Sight (Los)** is drawn from the front attack/center of a unit's front arc, exactly as if measuring ranged attacks.
- Disorderly Charge** has been removed entirely. Units suffer no penalties for rolling a "1" on a charge unless otherwise noted by abilities/effects.
- Redraw Tactics:** At the start of the game, after drawing their initial hand of tactics cards, each player may opt to shuffle their hand of tactics cards back into their deck. Then, draw a new hand of tactics cards.
- Commander-specific versions of Characters have been removed.** When creating a list, 1 Character Attachment that can be fielded as a Commander (marked by the Commander text on their card) must be selected. **This Attachment has their cost reduced to 0.** Their cards are included in the tactics deck as usual.
- ONLY the game modes included in this document are to be used**
- Order/Tactic Card Triggers:** The rule preventing dual-use of Orders and Tactics Cards with the same trigger has been removed. This means that, per trigger event, 1 Order AND/OR 1 Tactic Card may be utilized, instead of only 1.

MORALE AND PANIC CHANGES

The morale system has been overhauled entirely.

- Each battlefield unit now lists a value under its morale stat mirroring what you would see on its defense stat (eg, a unit might have a morale stat of 3+, 4+, etc.)
- Both morale and panic tests will now be marked with an (x) value preceding them. **Example: morale test(1), panic test (2)**
NOTE: Panic tests are still a form of morale test. This is unchanged.
- When a unit is called on to perform a morale test (x), it will roll a number of dice equal to (x). Each roll equaling or exceeding their morale stat is a success. Each roll failing to equal or exceed their morale stat is a failure. Additionally, each die that rolls a 6 is an automatic success, regardless of modifiers. A roll of 1 is always a failure, regardless of modifiers.
- Morale tests will always explain what happens based on successes and failures.
- When performing a panic test, each failure results in 1 wound to the unit.

Full morale test resolution sequence:

- Determine Morale Dice:** Each morale test lists a number of dice it rolls, denoted by its (x) value. Abilities and effects may modify this total.
- Roll Morale Dice:** The target rolls a number of dice equal to the test's (x) value.
- Apply Morale Die Rerolls and Effects:** Any effects that reroll morale dice or trigger *after rolling morale dice* are resolved.
- Generate Results:** Final morale results are generated. Each die that equals or exceeds the target's morale value is a success; all others are failures. A roll of 6 is always a success, and a roll of 1 is always a failure, regardless of modifiers.
- Resolve Effects:** Each morale test specifies the effects of success and failure.
- Suffer Wounds (Panic Tests Only):** If the morale test is a panic test, the target suffers wounds based on its total failures.
- Test Completed:** The morale test is now complete. Any effects that trigger *after a unit performs a morale test or after completing a morale test* may be resolved.

ARMY CONSTRUCTION

- The standard **Point Level** that should be utilized for all Pre-Season Games is **50 General Army Points + 3 Dedicated Attachment Points**.
- ONLY units included in this document should be fielded.
- For testing purposes it is encouraged that each tester utilize at least 1 of each of the included units, though feel free to construct any armies you wish once attuned with the included units.

TERRAIN CHANGES

- **Palisades** have been removed from the general terrain pool. They will be reimplemented in specific game modes. *Eg, they cannot be selected by players during battlefield setup.*
- During Battlefield setup, the number of terrain pieces has been increased from 4 to 6.
- The distance that terrain may be placed from any other piece has been reduced from 6" to 3".
- The **Rare** trait has been added to various terrain, meaning only 1 instance of each may be selected during set-up.

ATTACK SEQUENCE CHANGES

The rules for resolving attacks are now as follows:

IMPORTANT NOTE: This primary change to this sequence is the removal of panic checks from the attack sequence.

- **Determine Attack Dice:** The attacking unit determines the number of attack dice it rolls, based on its remaining ranks.
- **Roll Attack Dice:** The attacker rolls its attack dice.
- **Apply Attack Die Rerolls and Effects:** Any effects that reroll attack dice or trigger *after rolling attack dice* are resolved.
- **Generate Attack Results:** Final attack results are generated. Each die that equals or exceeds the attack's To Hit value is a hit; all others are misses. A roll of 1 is always a miss, and a roll of 6 is always a hit, regardless of modifiers.
- **Defender Rolls Defense Dice:** The defender rolls 1 defense die for each hit.
- **Apply Defense Die Rerolls and Effects:** Any effects that reroll defense dice or trigger *after rolling defense dice* are resolved.
- **Generate Defense Die Results:** Each defense die that equals or exceeds the defender's Defense value blocks 1 hit. A roll of 6 always blocks 1 hit, and a roll of 1 always fails, regardless of modifiers.
- **Defender Suffers Wounds:** For each unblocked hit, the defender suffers 1 wound. Unless otherwise specified, each wound removes 1 model from the unit.
- **Attack Completed:** The attack is now complete. Any effects that trigger after a unit is attacked or *after completing an attack* may be resolved.
- **Surge Forth:** If eligible, the attacker may now *Surge Forth*.

ATTACK TRAIT CHANGES

Attack Traits (Critical Blow, Sundering, and Vicious) are Innate. Innate traits cannot be cancelled by abilities or effects unless an effect explicitly states that it can cancel Innate traits.

NOTE: Precision has been removed.

When an ability or effect (*such as an Order or Tactics Card*) grants an Attack Trait, it will specify the duration of that trait. In rare cases, an ability may grant an Attack Trait without a duration (*for example: This unit's melee attacks gain Sundering*). Attack Traits granted without a duration are permanent and cannot be cancelled.

Attack Traits have the following definitions:

Critical Blow: For each attack die result of 6, the defender does not roll a defense die for that hit and instead suffers 1 wound.

Sundering: Defense dice rolled against this attack suffer -1 to their results.

Vicious (x): After this attack has been completed, the defender suffers a panic test (x).

Note that some abilities might grant a unit Vicious (+x). In this case, the unit gains Vicious (x). If it already had Vicious (x), (+x) is added to its value. All instances of (+x) are cumulative.

PASSING CHANGES

Passing has been reworked to the following:

- During the **Unit Activates** step of the Activation Phase, if the active player has fewer total remaining activations than their opponent, they may choose to pass instead of activating a unit.
- To determine total remaining activations, count the total number of unactivated Battlefield and Council units each player controls.
- When a player passes, their turn immediately ends and play passes to the opposing player.
- Each player may only pass once per round.

RETREAT CHANGES

- When a unit declares a Retreat action, the first step in resolving that action is the unit suffers a panic test (3), with (+1) for each of its destroyed ranks. Assuming the unit is not destroyed by this test, it completes the retreat action as usual.

COUNCIL UNIT AND BOARD CHANGES

- Council Units function exactly as they did in their prior form (NCUs) for all gameplay purposes with the following additions:
- Some Council Units have abilities that only trigger when they claim a specific zone. These abilities are marked by the matching Council Zone symbol next to the ability.
- These abilities are typically labeled "Claim", triggering when the zone is claimed; "Control", creating a persistent effect while that Council Unit remains on the zone; or "Influence", which functions exactly as it did in Season 6.
- This test uses the **Escalation** version of the Council Board:

Council Board (Escalation Version)

Each zone on the Council Board now has:

1. A Base Effect (always resolves when the zone is claimed)
2. An Escalation 2 effect
3. An Escalation 3 effect

There is no Escalation 1. Escalation effects begin at 2.

When a player claims a Council Board zone, resolve effects as follows:

- The base effect of the zone always resolves.
- Check how many total council units (*from both players combined, including the unit that just claimed a zone*) are currently on the council board.

If there are:

- 2 or more Council Units on the board, the zone's Escalation 2 effect also resolves.
- 3 or more Council Units on the board, the zone's Escalation 3 effect also resolves.

• Escalation is checked only at the moment the zone is claimed.

• Ownership of Council Units does not matter-only the total number currently on the board.

When a zone is claimed, its base effect resolves. If the total number of council units on the board (regardless of owner) meets or exceeds an escalation value listed on that zone, that effect also resolves.

Target 1 enemy battlefield unit.
It suffers a panic test (3).

Escalation 2: This test gains (+2)
Escalation 3: The target suffers -1
to its morale dice results.

Target 1 friendly battlefield unit.
It restores 2 wounds or removes
1 condition token.

Escalation 2: Target may
perform both effects.

Escalation 3: Target may restore
+1 wound or remove +1 token.

Draw 1 tactics card.
Then, target 1 enemy battlefield
unit. It gains 1 condition token.

Escalation 2: Draw +1 tactics card.
Escalation 3: Place +1 condition

SETUP

Place 1 Objective token in the center of the table, then place 4 tokens as shown: 12" from Deployment Table Edge and 3" from each Flank Table Edge.

SPECIAL RULES

- **Controlling an Objective:** Whichever army has the most combined battlefield unit ranks within 3" of an objective token controls it.
- **Commander Bonus:** Your commander counts as +1 rank for controlling objectives.
- **Scoring Victory Points:** Beginning on round 2, each player scores 1 victory point for each objective they control at the end of each round.

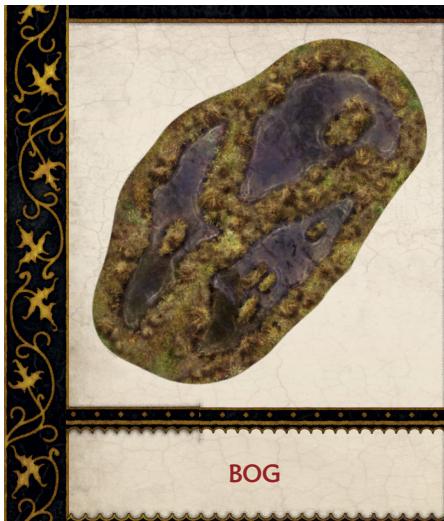

SETUP

Place 1 objective token in the center of the table, and 2 tokens as shown, 3" from each flank edge.

SPECIAL RULES

- **Controlling an Objective:** Whichever army has the most combined battlefield unit ranks within 3" of an objective token controls it. In the event of a tie, neither player controls the objective.
- **Commander Bonus:** Each time a unit containing your commander destroys an enemy, gain 1 victory point.
- **Scoring Victory Points:** Beginning on round 2, each player scores 1 victory point for each objective they control at the end of each round.
- **Key Objective:** At the start of each round, roll a d3. That round, the corresponding objective grants +1 victory point.

BOG

Hindering (Terrain Penalty): Units charging through this terrain piece must roll 1 additional charge distance die and, before determining results, discard the highest result.

Rough (Terrain Penalty): Units performing maneuver or march actions into, out of, or through this terrain piece subtract 1" from the total distance they would move.

FOREST

Cover (Defense Bonus): Units with any part of their tray on this terrain piece gain +1 to defense dice results against ranged attacks.

Disruptive (Terrain Penalty): Units charging through this terrain piece do not gain charge bonuses.

CORPSE PILE

RARE: ONLY 1 CORPSE PILE MAY BE SELECTED DURING BATTLEFIELD SET-UP.

Disruptive (Terrain Penalty): Units charging through this terrain piece do not gain charge bonuses.

Horrible (Terrain Trait): While within 2" of this terrain piece, units performing morale tests suffer -1 to their morale dice results.

WEIRWOOD TREE

RARE: ONLY 1 WEIRWOOD TREE MAY BE SELECTED DURING BATTLEFIELD SET-UP.

Disruptive (Terrain Penalty): Units charging through this terrain piece do not gain charge bonuses.

Inspiring (Terrain Trait): While within 2" of this terrain piece, units performing morale tests gain +1 to their morale dice results.

HEDGE

Cover (Defense Bonus): Units with any part of their tray on this terrain piece gain +1 to defense dice results against ranged attacks.

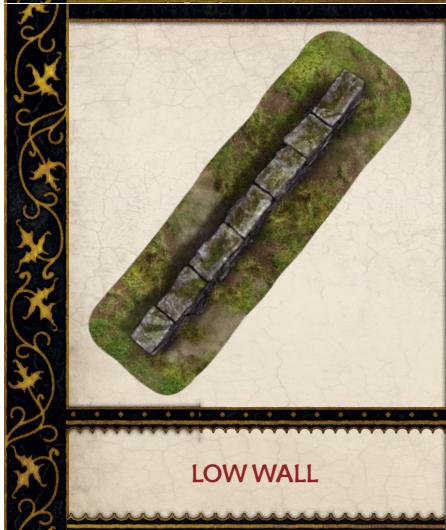

Rough (Terrain Penalty): Units performing maneuver or march actions into, out of, or through this terrain piece subtract 1" from the total distance they would move.

STAKES

Dangerous (Terrain Penalty): Units performing actions while on this terrain piece, or moving into, out of, or through this terrain piece, suffer 1 wound for each of their remaining ranks after completing that action or move.

Hindering (Terrain Penalty): Units charging through this terrain piece must roll 1 additional charge distance die and, before determining results, discard the highest result.

LOW WALL

Cover (Defense Bonus): Units with any part of their tray on this terrain piece gain +1 to defense dice results against ranged attacks.

Destructable (Terrain Trait): During their activation, units within 1" of this terrain piece may perform a Destroy Terrain Action. If they do, remove this terrain piece from the battlefield. That unit may then perform a 2" shift directly forward, then pivot.

Fortified (Defense Bonus): When charging, if the attacker moves into, out of, or through this terrain piece, and did not start the action within 1" of this terrain piece, the defender gains +1 to defense die results.

ORDER: STARK FURY
When this unit is performing a melee attack, before rolling attack dice:
Target this unit. This attack rolls +2 attack dice and may reroll any dice. After completing this attack, it becomes Vulnerable.

WINTER'S BITE

- Critical Blow
- If this unit has a destroyed rank, this attack gains +1 to hit.

Sworn Swords are the bedrock upon which House Stark commanders base their strategies. Brave, capable, and overwhelmingly loyal to the Direwolf banner, Sworn Swords embody the words "The North Remembers", with each lost comrade serving only to push them forward in their cause. While other bannermen march for gold and glory, those loyal to House Stark stand firm out of duty, honor, and unshakable northern loyalty.

STARK OUTRIDERS

Stark Outriders are expert scouts who use their speed and fieldcraft to guide the Northern host. They seize favorable ground, expose enemy missteps, and reposition allies before battle lines collide. Though they lack the raw offense of heavier cavalry, their mobility and tactical insight give Stark commanders the flexibility to strike where foes least expect it. Ever watchful, they ensure no threat goes unnoticed.

PLAYTEST JAN 1.0

Hunters, woodsmen, and survivalists from the rugged North often serve their lords in one military capacity or another, but when the Direwolf marches to war, it brings more skilled bowmen than most. Keen-eyed and disciplined, Stark bowmen spot openings in enemy defenses and turn those weaknesses against them, leaving foes disorganized and vulnerable. Poor at close range, they fire suppressive volleys that give allies space to strike.

HOUSE KARSTARK SPEARMEN

6

PLAYTEST JAN 1.0

Karstark Spearmen advance with shields locked and spears set, forming an unyielding wall meant to blunt assaults rather than chase glory. They are drilled to absorb the force of an enemy's charge, holding fast until the moment comes to strike back in close, brutal exchanges. On the flanks or at the heart of a line, they deny ground and punish any foe who presses too far. They are not shock troops, but once set in place, they are exceedingly difficult to dislodge.

HOUSE UMBER BERSERKERS

Berserkers excel in flanking maneuvers, shattering charges, and general pursuit of routed enemies. A wise commander must take care not to allow them such free rein to find themselves overwhelmed. However, as veteran troops, Berserkers might indulge in bloodlust, but rarely find themselves consumed by it. Let their enemies taste the cold steel and fury that only the Northmen can bring!

PLAYTEST JAN 1.0

LANNISTER GUARDSMEN

DOMANEERING PRIDE

When this unit performs a morale test, if it is engaged and has an equal or greater number of remaining ranks than each enemy it is engaging, it may reroll any dice.

PATHETIC ATTEMPT

After an enemy completes a melee attack on this unit, target that enemy. If it does not have more remaining ranks than this unit, it suffers a panic test (4).

LANNISTER GUARDSMEN

PLAYTEST JAN 1.0

The world over knows the extent of Lannister wealth, and its influence extends to even their most basic foot soldiers. The rank-and-file Lannister forces enjoy a battlefield superiority borne of strong armor, heavy metal shields, and the sense of invulnerability that goes with it. Most enemies of House Lannister prove incapable of even making a dent in such stalwart lines.

LANNISTER CROSSBOWMEN

PLAYTEST JAN 1.0

CROSSBOW

- Critical Blow
- Sundering

READY, AIM, RELEASE!

When an enemy declares a charge action against this unit from the front, before resolving that action, this unit may perform 1 ranged attack action against that enemy. This unit cannot shift as part of this attack.

LANNISTER CROSSBOWMEN

In terms of training, Crossbowmen require far less than their more archaically armed counterparts. Yet, the crossbow itself is more costly to manufacture and maintain, especially in battlefield conditions. With even minimal training, Crossbowmen can fire accurately and pierce thick armor even under the pressure of a direct charge. Though no Lannister commander places their Crossbowmen anywhere near a melee, if it can be helped!

HOUSE CLEGANE BRIGANDS

PLAYTEST JAN 1.0

LIGHT CAVALRY

- Each model in this unit has 2 wounds.
- Once during this unit's activation, before selecting its action, it may perform 1 maneuver action.

BRUTAL ARMAMENTS

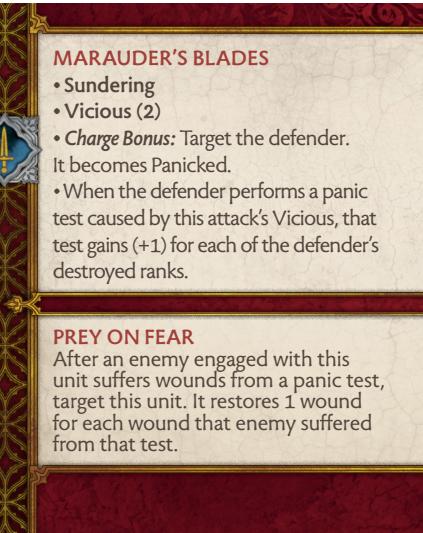

- Vicious (3)
- *Charge Bonus*: Target the defender. It becomes Panicked.
- If the defender suffers wounds from Vicious, you may target 1 other enemy in long range of that enemy. It suffers a panic test (3), with (+1) for each of the defender's destroyed ranks.

PLAYTEST JAN 1.0

HOUSE CLEGANE BRIGANDS

While most cavalry assaults are savage enough, Gregor Clegane's bands of mounted brigands take brutality beyond all norms. It's not enough for them to simply shred enemy ranks from the flanks or rear. For the type of man drawn to Clegane's ranks, a weapon that leaves an enemy crippled and shattered is as good as one that kills swiftly and efficiently. Yet, for all their fearsome reputation, Brigands have little thirst for fair fights.
